Calculator logic

Data
    Store
    Operand

Operations
    Print
    Swap
   Add
    Subtract
    Multiple
    Divide

Basic calculator computation

Store = store operation operand

Calculator layout

SimpleGUI frame (input)

CodeSkulptor console (output)

Control area   Canvas

```
| Print    |
| Swap     |        Unused (empty)
| Add      |
| Subtract |
```

Store = 12   Print
Operand = 3

Store = 3   Swap
Operand = 12

Store = 15   Add
Operand = 12
